SKILLS

- **Core Skills**
  OOP, SQL, Data Structures and Algorithms, Problem Solving, Teamwork
- **Programming Languages**
  Java, Python, PHP, JavaScript, SQL, HTML, CSS
- **Framework**
  Spring Boot, Hibernate, ReactJS , Django
- **Development Tools**
  IntelliJ, VS Code, Docker, Github
- **English**
  Basic communication

AWARD

- **2022, 2023, 2024:**
  Received **scholarships 4 times**
- **3/2025:**
  2nd place in a **Hackathon** SGU

CERTIFICATION

2025: **TOEIC L&R 595**

PROFILE

Enthusiastic third-year **Software Engineer** student seeking a **Web Intern** to leverage my skills in **programming**, **database management**, and **RESTFul API**. Eager to contribute to real-world projects, enhance my **technical expertise**, and collaborate with a dynamic team to build efficient and scalable solutions while gaining hands-on experience in **software development**

EDUCATION

Software Engineering   2022 - 2026
Sai Gon University
GPA: 3.6 / 4.0

WORK EXPERIENCE

Social Media ↗   Feb 2025 - Present
Java, Spring, ReactJS, Hibernate, MySQL

- **Role:** Led a team of five as Backend Developer and System Designer.
- **Key Contributions:**
  - Implemented posting, commenting, and liking features with real-time WebSocket updates.
  - Enabled media uploads (images, videos) with cloud storage integration.
  - Used Gemini API to auto-generate captions for uploaded media.
  - Developed a friend/follow system with real-time notifications.

AI Study Assistant ↗   Mar 2025
Python, Django, ReactJS, GPT API

- **Role:** Led a team of three in building a web application for document summarization, mind map generation, and exercise creation.
- **Key Contributions:**
  - Integrated GPT API to auto-generate summaries, mind maps, and exercises from uploaded documents.
  - Implemented user authentication for secure access.
  - Developed export features supporting PDF, DOCX, and PPTX formats.

Airline Reservations ↗   Sep 2024 - Nov 2024
Java, Spring, ReactJS, Hibernate, MySQL

- **Role:** Led a team of seven as Backend Developer and System Analyst, designing and building a flight management system.
- **Key Contributions:**
  - Developed APIs and integrated database for a complete backend system.
  - Built a real-time booking platform with WebSocket caching for improved performance.
  - Designed role-based permissions (admin, manager, staff) for operational efficiency.
  - Integrated and tested VNPay payment gateway in a sandbox environment.
